

## Human Creatine Kinase MB Isoenzyme (CK-MB)

|                 |   |
|-----------------|---|
| CATALOG NUMBER: | A267  |
| SOURCE:         | Purified from Human cardiac tissue  |
| LOT NUMBER:     | AT416   |
| FORM:           | Lyophilized in 20mM Tris, 2mM EDTA, and 2mM DTT, pH 7.5. <b>CONTAINS NO PRESERVATIVE</b>  |
| PURITY:         | >95% BY SDS-PAGE  |
| STORAGE:        | Store lyophilized material at -20°C. <b>PRODUCT SHIPS ON COLD PACKS.</b>  |
| RECONSTITUTION: | Reconstitute at desired concentration in Tris buffered saline with 1% BSA, 1mM DTT, and 1mM EDTA. Add preservative if desired. Store reconstituted material in small aliquots at -20°C. |
| INTENDED USE:   | For Research Use Only. Suitable for use in immunoassay development or other applications.   |
